

Westport River Gallery Presents
Jean Claude Duteil

Born on the banks of Seine in 1950 to a family prominent in the arts, Jean Claude Duteil developed an interest early in painting at 13. Shortly after, he had his very own debut at an exhibit in Paris. Jean Claude Duteil dedicates his time to the natural study of shifting light upon land and sea. His paintings have a realistic, warm appearance with endless sun rising skies.

Jean Claude Duteil is a member of the prestigious impressionist society, "Maison des Artistes Francais." Duteil's works are exhibited throughout Europe and the Orient.
